

## FULL STACK DEVELOPER PHP (W/M/D)

METZLER VATER is an independent group of agencies for brand activation. About 180 experts work in the areas of VISUAL, DIGITAL, LIVE, SPATIAL and SERVICES as stand alone or - just as often – collaborating in team structures on integrated brand experiences for customers such as BMW, MINI, Bosch, Porsche, SAP oder die Württembergische Versicherung.

Our digital experts METZLER VATER DIGITAL create interactive platforms and develop concepts for an intensely networking world - through online campaigns, digital activation, or social media strategies - and work interdisciplinarily with our affiliate companies on hybrid and virtual event formats.

### YOUR TASKS:

- Design and programming of functions and new application architectures for a complex, web-based cloud platform
- Development and programming of innovative, digital and application-oriented web concepts
- Independent creation and implementation of potential test scenarios
- Cooperation with external and internal developers
- Development-specific support and documentation
- Administration of the technical infrastructure

### YOUR QUALIFICATIONS:

- Successfully completed degree in the field of computer science or an equal education or qualification in computer science, application development
- Five years of professional experience in OOP with PHP, ideally in a (digital) agency
- Very good knowledge of PHP, JavaScript, HTML, CSS, SQL
- Very good knowledge of current frameworks (Laravel, jQuery, Vue.js, Inertia.js, Livewire)
- Very good knowledge of object-oriented programming and the PWA and SPA technologies
- Good knowledge of AWS Cloud Services
- Experience with test driven development and agile development methods
- Very good English and good German linguistic proficiency

### WHAT TO EXPECT:

- Great team with agency dog Lava and a panoramic view in our new office in the east side of Munich
- Full responsibility for your projects and an interesting customer portfolio with exciting tasks
- An open, cordial corporate culture with flat hierarchies and short communication channels
- The possibility of job bike leasing and participation in the company pension scheme
- Flexible working hours
